DAILY GAZETTE.

JANESVILLE, WISCONSIN, FRIDAY, NOVEMBER 7, 1862.

Correspondence of the Daily Gazette. From the Ewenty-Second Regiment

Camp Granger, pear Lexinaton, Nov. 2, 1862. Messas. Epirons .- The Gazette, until within a few days, has been a rare visitor in camp, as also all our papers. I don't know how many correspondents you may have in the 22d, but judging from letters received, from time to time, speaking of deaths, skirmishes, captures, etc., which we are ignorant of, I conclude your readers are not well posted in regard to our conditionala ali malo enni or er come adi

I will make no attempt to give you a detailed account of our journeyings, but without rheforical flourish, and in as few words as possible, will give you a sketch of our march from Covington to Loxington, our present condition; etaplique, observation inco

We left the former place on the 8th of October, arriving here on the 26th. We stopped; at ; various , places; on the route, sometimes for nearly a week. The whole distance by turnpike is eighty-four milesin a straight line it would not exceed sixty. The road runs south, then south east, like a worm fonce, occasionally almost doubling, to accommodate itself to the hills, From Covington to Georgetown the country is the roughest I have ever seen. There are no good springs on the route; a sort of fluid bozes out of the clay in the deep ravines, and collects in pools where the natives have built dams across. At Georgetown and Lexington the water is excellent, and the country is splendid. " Our longest march was about sixteen miles, with all our "traps" upon our backs. During this time many cases of sickness occurred, but none serious: "An occasional gun fired while on picket, at an imaginary foe, is the nearest approach to anything like a skirmish. The enomy, perhaps a few of Morgan's cavalry excepted, had skedadilled before we started. We took some secesh cattle on the road, and arrested a few prisonors. That, and the dull routine of dusty roads; hot days, and cold, dewy nights, is

about the whole story. Although we have little time or chance for drill, since loaving Covington, we are attaining a good state of discipline. We thave uniformly been complimented for our witnessed us on dress parade. He went so far as to say that we were "the linest regiinent he had ever yet set eyes on," and was anxious to obtain us for his guard, but he arrived too late to make any arrangement to that effect, .....

The "eternal nigger" comes in for his share of attention from us. Some of these deluded mortals, tired of a life of care and comfort (?), and yearning for freedom, escaped into our lines. Acting Brig. Gen. Swain ordered Col. Utley to give them up, 

There was strong talk of a court martial, &c., but Col. Swain finally contented himself by throwing us out of his brigade. At Georgetown the secoshe made threats

of taking the negroes away by force. In a talk with the Governor the Colonel told him that if a revolver was drawn on one of his have traded with them is that they have fully succeeded in the wouldn't leave a shingle of George. est in their intention. No effort with the spared her after the content of the spared her after the state of the spared her after the state of the st men he wouldn't leave a shingle of Georgetown." I'don't think there was a man ip the regiment who would not in that case a large invoice of Skirts and now offer the following have relished the sport. It is needless to styles to Ladies at the lowest price: say that the secesh kept pretty quiet as we marched through with fixed bayonets and SHELTON & OSBORN'S GORE TRAIL KID guns primed and ready to send forth death at a moment's warning.

It may not be known to all that we have We have also the BEST and LARGEST assortment for a fine regimental band, with splendid sil-YOUNG LADIES, MISSES, AND ever instruments. The boys were detailed to receive promptly the from different companies, and have not bad much practice together, but play very cred itably now. The money for the instruments be obtained here. was raised by the boys, \$750 in all... It is the only band I have seen in Kentucky.

> The 23d passed here a day or two ago. Our band went out to the turnpike and played as they passed, each, company answering them with three rousing cheers. Let me say one word in conclusion about

rumors of imprisonments, deaths, captures, &c. .. Let no one pay any attention to them until confirmed, as it were, at the mouth of three witnesses." Two months in the army would make unbelievers of all our J. A. DENELL friends whose hearts ache with apprehen. sion at every story, which is set alloat concerning our hardships and sufferings. We expect to endure these, but so far we have had quite an easy time; much more so than I for one anticipated. If any one thinks to be a soldier is to enjoy all the comforts of home, it is time he were undeceived. Our boys, I am thankful to believe, are willing to endure all things for the sake of putting down this rebellion and ask only in return the kind greeting of friends when, with bronzed faces and thinned ranks, perhaps, we come back to the dear old state we have left.

Yours, &c., H. E. W.

JANESVILLE, WISCONSIN, FRIDAY, NOVEMBER 7, 1862.

Correspondence of the Daily Cazette.
From the Twenty-Second Regiment.

Comp Granger, near Lexington, Nov. 2, 1862. Mesens. Entrons :- The Gazette, until within a few days, has been a rare visitor in camp, as also all our papers. I don't know how many correspondents, you may have in the 22d, but judging from letters received from time to time, speaking of deaths, skirmishes, captures, etc., which we are ignorant of, T conclude your readers are not well posted in regard to our condition.

I will make no attempt to give you a detailed account of our journeyings, but without rhetorical flourish, and in as few words as possible, will give you a sketch of our march from Covington to Lexington, our present condition; etc.

We left the former place on the 8th of October, arriving here on the 26th. We stopped at various places on the route, sometimes for nearly a week. The whole distance by turnpike is eighty-four milesin a straight line it would not exceed sixty. The road runs south, then south east, like a worm fence, occasionally almost doubling, to accommodate itself to the hills. From Covington to Georgetown the country is the roughest I have ever seen. There are no good springs on the route; a sort of fluid bozes out of the clay in the deep ravines, and collects in pools where the natives have built dams across. At Georgetown and Lexington the water is excellent, and the country is splendid. Our longest march was about sixteen miles, with all our "traps" upon our backs. During this time many cases of sickness occurred, but none serious: An occasional gun fired while on picket, at an imaginary foe, is the nearest approach to anything like a skirmish. The enemy, perhaps a few of Morgan's cavalry excepted, had skedaddled before we started. We took some secesh cattle on the road, and arrested a few prisoners. That, and the dull routine of dusty roads, hot days, and cold, dewy nights, is

about the whole story. Although we have little time or chance for drill, since leaving Covington, we are attaining a good state of discipline. We have uniformly been complimented for our Family Groceries ever since we started. The Governor of the state-visited us at Georgetown, and witnessed us on dress parade. He went so far as to say that we were " the finest regiment he had ever yet set eyes on," and was anxious to obtain us for his guard, but he arrived too late to make any arrangement to that effect.

The "eternal nigger" comes in for his share of attention from us. Some of these deluded mortals, tired of a life of care and comfort (7), and yearning for freedom, escaped into our lines. Acting Brig. Gen. Swain ordered Col. Utley to give them up, which he refused to do.

There was strong talk of a court martial, Lc., but Col. Swain finally contented himself by throwing us out of his brigade.

| At Georgetown the secesh made threats RICE, CAUL & RICE of taking the negroes away by force. In a that if a revolver was drawn on one of his men he wouldn't leave a shingle of George town. I don't think there was a man ip We have just received, direct from the manufacturers a large invoice of Skirts and now offer the following have relished the sport. It is needless to styles to Ladies at the towest price: the regiment who would not in that case say that the secesh kept pretty quiet as we marched through with fixed bayonets and

It may not be known to all that we have a fine regimental band, with splendid sil-YOUNG LADIES, MISSES, AND ver instruments. The boys were detailed from different companies, and have not had much practice together, but play very cred itably now. The money for the instruments was raised by the boys, \$750 in all. It is the only band I have seen in Kentucky.

The 23d passed here a day or two ago. Our band went out to the turnpike and played as they passed, each company answering them with three rousing cheers.

Let me say one word in conclusion about rumors of imprisonments, deaths, captures, &c. Let no one pay any attention to them until confirmed, as it were, at the mouth of "three witnesses." Two months in the army would make unbelievers of all our friends whose hearts ache with apprehen sion at every story which is set affoat concersing our hardships and sufferings. We expect to endure these, but so far we have had quite an easy time; much more so than I for one anticipated. If any one thinks to be a soldier is to enjoy all the comforts of home, it is time he were undeceived. Our boys, I am thankful to believe, are willing to endure all things for the sake of putting down this rebellion, and ask only in return the kind greeting of friends when, with bronzed faces and thinned ranks, perhaps, we come back to the dear old state we have left.

Yours, &c.,

But as it is, the time for many words has passed away.

The Chicago Tribune, of the 7th, says: James C. Allen is elected as representaive in congress for the state at large, by not less than 15,000 majority. The demo-cratic majorities in "Egypt" are very materially reduced, but the central counties have more than made up the deficiency, We believe that there is a majority of 75, 000 in the Illinois regiments to day for Mr. Ingersoll and the principles which he represented in the election. > OLD MANSION OF JAMES MONROE,-Two miles from Aldie, on the Leesburg road, we passed the old residence of Ex-President Monroe. At a farm house upon the estate priety as well as loyalty, paraded, with the most unbecoming impudence, a secession flag. Of course three men were ordered to seize and confiscate the "Bounic blue flag," whereat the ladies were shocked and astounded, indignant and loquacious. It would not do. Not only had the ladies showed the confederate flag, but the little children had thrown stones at the cavalry, probably instigated by the ladies, and the flag was confiscated. The disloyal emblem was taken, and Major Keenan brought it back to camp.

Thence they proceeded over the Kittoctan Mountains, through the delightful valley of the Goose Creek, homeward.

A DASTARDLY ACT .- The Louisville Journal affirms the truth of the following "About as low a meanness as we have heard of in the war occured at Chaplin Hills. When the battle was over and the night had covered the dead and wounded under the dark trees, it was natural for the friends on either side of the combatants to look after their dead companions, and especially for those who might be prostrate and languishing under wounds, but still alive. At this time sacred to humanity, the Bishop-General Polk stationed himself with a small and secret force under the shadow of the forest, by the side of the dead, hyena-like, and, when a benevolent and christain heart came to look for his dead or wounded friend, he would take him prisoner, march him off and strip him! This act, so disgraceful to human nature, is absolutely true, and can be fully attested."

The Madison Journal says: "The republicans of Old Rock have most nobly done their full duty, and deserve the highest praise. We rejoice most heartily with them in their complete triumph."

MORNING DISPATCHES.

GAINESVILLE, NOV. 6. Gen. Sigel has so far recovered as to visit Thoroughfare Gap to day. Cars run on the Maussas road as far as White Plains, beyond the Bull Run range. The affair of the conflagration at Haymarket is being thoroughly investigated by the provest marshal. All was quiet along the left wing of the army of the Potomac to-day.

FORTRESS MONROE, Nov. 5. Mrs. Pigot, her son, three daughters and all her slaves were arrested on Wednesday night last by the rebels and taken to Richmond. Mrs. Pigot is a widow residing about nine miles above Williamburg, and a sister of S. J. Boden. Her only offense, as far as known, is that her brother is an un-compromising Union man. Measures are being taken which will undoubtedly lead to the liberation of this family.

The steamer Express left Fort Monroe at o'clock this forenoon on a flag of truce mission to Aiken's Landing. She took up 150 rebel prisoners, most of whom were badly wounded. The French consul to Richmond also went up on the Express.

NEW YORK, Nov. 7. The following is a special to the Times:

This time a large force advanced to the attack, but on coming within range of our guns, a few well directed shots caused them to change their front to the rear. Rebels are reported as having crossed from Tennessee with a large foraging train into Whitely county, to forage in that county and along the Cumberland river. Steps are taking to prevent this outrage on the loyal mountaineers, and stop rebels from procuring their subsistence in Kentucky, and to stop contraband trade in the state.

A man calling himself John W. Lee, from Knoxville, Tenn., pretending to be loyal, has been arrested by order of Gen. Boyle. He had over \$100,000, with him, which was taken, and he is held for the action of the authorities at Washington. He says the money belongs to loyal parties in Georgia. Up to the lat of November, there have been, under the act of July 14th, 3,786 applications from invalids in the army, and ment—with the most profound conviction. Why have our splendid armies achieved such slight successes? Why have they lain idle so long, and why have the victories they have won been so utterly barren of decisive results? The war has dragged on for a year and a half. The country has given the government over a million of men, and all the money they could possibly use; yet we have made scarcely any progress toward crush-

The Tribune thus warns the administration of danger:

We tell the administration most carnestly that the country cannot endure another month's inaction of our armies-that a Fernando-Wood dictatorship at the north, in thorough sympathy if not in open alliance with the Jeff. Davis rebellion at the south, will inevitably result from such inaction. The war for the Union must be fought out speedily and resolutely or it will die out. Defeat would be calamity, but delay is ruin.

IMPORTANT TO GRAIN DEALERS .- The commissioner of revenue decides that a person who buys grain strictly on his account, and sends it to another market, there to be sold on commission, is not thereby made subject to any license tax under the excise law. If he buys grain solely for another person or firm, acting as their agent, he is still exempt from license. If he buys for more than one party, he comes within the provisions of section 64, article 14, and requires a liceuse as a commercial

This applies only to instances where grain is bought and sent to another market for sale. When the grain is sold by the purchaser, he requires a dealer's license; but whether wholesale or retail, must be left entirely to the judgment of the asses-

sor in each case. Inasmuch as a licensed wholesale dealer is permitted to act as a commercial broker | WEDNESDAY, THE 21st DAY of JANUARY, A without an additional license, as well as to sell at retail, parties engaged in the grain trade, as usually conducted, will probably find it to their advantage to obtain licenses as wholesale dealers .- Chicago Tribune.

TO THE PEOPLE OF WISCONSIN: Amidst the manifold vicissitudes and calamities that cave befallen and surrounded us, threatening the life of our nation, and the lives of zo many of its here leand noble cons, it particularly becomes us to turn with grateful hearts to the Supreme Being for the many blessings we have enjoyed, and the afflictions we have been spared. The horrors and devastations of war, so flercely raging around us, have not touched the border of our state; excepting the bravemen who have rallied around our country's flag in this time of peril, our citizens have been allowed to pursue their peacoful avocations; our harvest, though not as abundant as Providence sometimes has pleased to grant us, lias set well comcensated the labor bestowed upon it, and well filled our iouses and barne; the savage tribes upon our border estilements, so threatening at one time to our peace,

have been quieted, and kept under surveillance. The great cause of our nation, it lis true, has not friimplied jet over its enemier, but neither has it yet falled; the enemy less been driven from the soil of the loyal states; our army has been reinforced by hundreds of thousands of brave, patriotic and noble men ready to do hattle, and, if necessary to die for the integrity of the Union; our resources and energies are unimpaired; we have reason to be hopeful for the future, and therefore thankful for the past, The loyalty, honor and patriotism of the state of

### The Recent Elections.

The Chicago Journal in giving some of the supposed reasons why the administration has suffered defeats in some of the recent elections, savs :

We presume there are few men of discriminating judgment who will now pre-tend that if the President had adhered to his policy on the slavery question as enun-ciated in his letter to Greeley, as he honestly desired to do, and as he would have done but for the formidable and clamorous pressure that was forced upon him from all sides to issue a proclamation, the demo-crats could or would not have been able to administration at the polls as a party.

It is plain enough to all who are not too blind to see the truth, that the President adhered to his border state, slavery propitiating policy too long. The proclamation was not too soon, but too late. A few days will decide whether he has the strength to save his administration and the country.

MILWAUKEE COUNTY .- The majority for Brown, democrat, for congress, in this county, is 4,985. The majority is "perfectly awful," and at the same time the vote was comparatively light—about 2000 less than it was two years ago. What voting there was done, however, was the work almost entirely of democrats.—Wisconsin.

Not entirely, as there were pretended republicans in that city who voted for Brown, and gave their influence for him publicly. These renegades may as well take permanent quarters with the democracy, as they will be known as republicans no more. There is a shadow of an excuse for the mass of the democrats voting as they have done, out of party ties, but for a republican to desert so good and true a man as John F. Potter, at this time, is little short of treason. They sin against light and knowledge, and there is no excuse for them. We are in a time when the oratorical powers of the mightiest speaker are of little vail. The voice of the forum, in a measure is hushed, and grim war sits there as the arbiter of our destinies. If the words of a speaker could be granite blocks, to be hurled at the open fee in arms, and the traitor plotting in secret, there might be some virtue in speeches. But as it is, the time for many words has passed away.

The Germans have understood this from the beginning of the war. They cast around for a man to lead in this gigantic war of civilization against barbarism, in the early stages of the battle. They have found this man. They rallied around him. They stood by him; and they will forever stand by him as long as he is true to him-self and to the great and sacred principles

of liberty. That man is John C. Fremont. Of course, in an age where small minds think that they can rule great nations, a man of his character is never acceptable to the powers that be. If a man, by his intellect, his character, his statesmanship, his deep penetration of the causes of a national disaster, towers high above his countrymen, envy and jealousy always creep at his

In trying to execute the designs of his genius they almost tore it in pieces, and brought the country almost to the very brink of ruin. The people know

It is an eternal honor to the German name that the Germans, almost to a man, never lost their faith and their confidence in Fremont. The German citizens have the same interest in the preservation of the Republic, that any other citizen has, and voice can no longer be despised or treated with contempt; the Republic is in danger, the side of truth and justice, it must and will prevail,

And this day proves it. German industry has in a great measure made Missouri what it is. Wherever German emigration goes, there slevery must perish, and the future historian of the free state of Missouri will record the labors of the German mind for her deliverance from the most accursed of all social institutions. Therefore take courage, my friends. When the holy morning of liberty is dawning again, when the starry flag of the Union floats in triumph To which the General gallantly and fittingly reputal as follows:

"It gives me, ladies, much pleasure that
you have been willing to add this beautiful

The Germans to the standard bearer of liberty, John C. Fremont.

Speeches were also made by Charles P. Johnson, Col. Jameson, Mr. Bonner, and Col. Gantt, and the crowd did not disperse till late in the night.

#### Election in Illinois.

The Chicago Tribune, of the 7th, says: James C. Allen is elected as representaive in congress for the state at large, by not less than 15,000 majority. The demo-cratic majorities in "Egypt" are very ma-crially reduced, but the central counties terially reduced, but the central counties have more than made up the deficiency. We believe that there is a majority of 75,000 in the Illinois regiments to day for Mr. Ingersoll and the principles which he represented in the election. Yet if the vote which has been east shall arouse the administration from the torpor which benumbs it and through it the array and the pation. it, and through it the army and the nation, we shall not regret the seemingly adverse result. The vote of Illinois is a vote of lissatisfaction with the conduct of the war. It is a demand for a change—a pretty em-phatic demand, too. Let it be heeded.

The delegation in the next congress from this state will be five republicans and nine democrats. Messrs. Lawrence, McCarty and Salt are all defeated by good round majorities.

The democrats have also a majority of 22 on joint ballot in the legislature, and will, therefore, be able to elect a senator in place of Mr. Browning. The change will not be very great.

DEATH OF GEN. MITCHELL.—The whole nation will learn with sorrow of the death of Mujor Gen. Mitchell at Beaufort, South Carolina, of yellow fever. General Mitchell has proved himself a first class man. He was just preparing an expedition against Charleston. He had the unbounded confidence of the army, and was hourly expect ing reinforcements to enable him to make useful to his country. The President had Lincoln sailed to do what he thought to be right, and Mitchell was finally banished to South Carolina, where he could not do much secause he had too few soldiers. Mitchell has been kept in that do nothing position for mouths. His small force had made died in Charleston rather than in Beaufort. Who will succeed Mitchell? Perhaps Banks may be diverted from Texas to South Car olina

OLD MANSION OF JAMES MONROE,-Two miles from Aldie, on the Leesburg road, we passed the old residence of Ex. President Monroe. At a farm house upon the estate some ladies, with a defective sense of propriety as well as loyalty, paraded, with the most unbecoming impudence, a secession flag. Of course three men were ordered to seize and confiscate the "Bonnie blue flag," whereat the ladies were shocked and astonnded, indignant and loquacious. would not do. Not only had the ladies showed the confederate flag, but the little children had thrown stones at the cavalry, probably instigated by the ladies, and the flag was confiscated. The disloyal emblem was taken, and Major Keenan brought it

Thence they proceeded over the Kittoc-tan Mountains, through the delightful valley of the Goose Creek, homeward.

A DASTARDLY ACT .- The Louisville fournal affirms the truth of the following: "About as low a meanness as we have heard of in the war occured at Chaplin When the battle was over and the night had covered the dead and wounded under the dark trees, it was natural for the friends on either side of the combatants to look after their dead companions, and especially for those who might be prostrate and languishing under wounds, but still alive. At this time sacred to humanity, the Bishop-General Polk stationed himself with a small and secret force under the shadow of the forest, by the side of the dead. hyena-like, and, when a benevolent and christain heart came to look for his dead or wounded friend, he would take him prisoner, march him off and strip him! act, so disgraceful to human nature, is absolutely true, and can be fully attested."

The Madison Journal says: "The republicans of Old Rock have most nobly done their full duty, and deserve the highest praise. We rejoice most heartily with them in their complete triumph."

PHILADELPHIA, Nov. 7 Com. Pendergast, commandant of the Philadelphia navy yard, died this morning of a paralytic attack. He was 62 years of age, and has been in the naval service of the country over 50 years,

Many of the Kentucky rebels have been heartlessly robbed by John Morgan, and yet they feel compelled to praise him without stint. They remind one of the jockey, who, whilst showing off a filly that he wish-Wis. Cevalry, has so far recovered, as to be hearts his name is enshrined. He who first pain, he exclaimed with a smile, "Pretty, able to travel, and has reached Milwaukee, gave a new empire to the nation, who first playful creature."

## Last Night's Report.

NEW YORK, Nov. 6. The Atlantic and Pacific joined hands this afternoon, by telegraph. New York and San Francisco transacted their business direct without rewriting. The distance is 4,500 miles. The difference in time between New York and San Francisco was found to be four hours and forty-five minutes.

WINNEBAGO COUNTY. Hamilton, rep., elected senator by 400 majority. Hanson, rep., and Hagan, dem., elected to assembly. Brown, for congress,

probably elected in this district. OUTAGAMIE COUNTY. Wheeler, congressman, 575 maj.; Douglas, dem., for assembly, 475 maj. No

senator voted for. DANE COUNTY.

Guppy's majority in this county is 600. Legislature stands, 1 rep. senator, 3 rep. assemblymen, and 2 dem. assemblymen elected. Four candidates on the republican county ticket are elected, and it is thought the army vote may elect the whole republican county ticket.

CAIRO, Nov. 6. Our very latest dates from Memphis say that no advance had been made from Holly Springs towards the federal lines. Our own orces occupy Grand Junction, and railroad and telegraphic communication have been established with Bolivar and Jackson. The probabilities are that no fight will occur this side of Holly Springs. The rebels are evidently in no mood to make an attack The federals are eager for an advance, and will probably soon be gratified.

The rebel forces under Morgan and
Woodyard, recently at Hopkinsville, have

probably evaded General Ransom by flight. They left Hopkinsville ten hours before he entered it.

WASHINGTON, Nov. 6. Special to Chicago Tribune.-The surmise that Gov. Morton of Indiana is likely to succeed Secretary Smith, in case of Smith's appointment to the vacancy occa-sioned by the death of Judge Huntington of Indiana, is entirely erroneous. Gov. Morton says publicly that he has not for a moment entertained any such idea, and that he would not under any circumstance accept a cabinet position. His business is entirely confined to official matters connected with the operations of the war. He is on the upper Potomac to day.

Up to the lat of November, there have peen, under the act of July 14th, 3,786 applications from invalids in the army, and ment—with the most profound conviction 5,258 on behalf of decessed soldiers, by that the only hope of the country lies in widows, mothers, minors and sisters; from the navy, 133 invalids, and 727 from widows, mothers, etc.
Gen. Hooker is able to walk, and even

to take a short ride on horseback, but not quite able to assume a large command.

Cassius M. Clay will probably go back to Russia.

Gen. Hunter's trunk was broken into a day or two since at his hotel, but the thief was has dragged on for a year and a was so hurried that ha got nothing. He half. The country has given the govern-threw aside in his haste an old stocking in ment over a million of men, and all the which was \$1,000 in gold.

The military commission of which Hunter is president, is dissolved. The court will be reconstructed without Hunter, who returns to the department of the south, and also without Gen. Augur, who goes back to his division in the army of the Potomac.

## To-Day's Report.

[Reported Exclusively for the Daily Gazette.]

#### MORNING DISPATCHES. GAINESVILLE, Nov. 6.

Gen. Sigel has so far recovered as to visit Thoroughfare Gap to day. Cars run on the Manassas road as far as White Plains, beyond the Bull Run range. The affair of the conflagration at Haymarket is being thoroughly investigated by the provost marshal. All was quiet along the left wing of the army of the Potomac to day,

FORTRESS MONROE, Nov. 5. Mrs. Pigot, her son, three daughters and all her slaves were arrested on Wednesday night last by the rebels and taken to Richmond. Mrs. Pigot is a widow worlding about nine miles above Williamburg, and a sister of S. J. Boden. Her only offense, as far as known, is that her brother is an uncompromising Union man. Measures are being taken which will undoubtedly lead to the liberation of this family. The steamer Express left Fort Monroe et

9 o'clock this forenoon on a flag of truce mission to Aiken's Landing. She took up 150 rebel prisoners, most of whom were badly wounded. The French consul to Richmond also went up on the Express.

NEW YORK, Nov. 7.

The following is a special to the Times:

Heanquagness, Gainssyille, Nov. 5.

Another attempt was made this afternoon to drive in our pickets, stationed a few miles beyond New Baltimore. This time a large force advanced to the attack, but on coming within range of our guns, a few well lirected shots caused them to change their front to the rear. Cannonading has been heard, to day, in the direction of Upperville. Stoneman's advance.

St. Louis, Nov. 6. It was believed to proceed from General

Lieut. Col. Franklin A. Dick, of this city, has been appointed, by General Curtis, provost marshal of the district, vice Col. Gantt resigned. Col. Dick entered on his duties this afternoon. General Fremont having obtained permission from the court martial to visit New York, left for that city this morning. He will probably return in a few

LOUISVILLE, Oct. 6. The Louisville & Nashville railroad is taking freight to Mitchellville, Tenn. It is supposed that the entire road will be in canning order by the 14th.

Rebels are reported as having crossed from Tennessee with a large foraging train into Whitely county, to forage in that county and along the Cumberland river. Steps are taking to prevent this outrage on the loyal mountaineers, and stop rebels from procuring their subsistence in Kentucky, and to stop contraband trade in the state.

A man calling himself John W. Lec, from Knoxville, Tenn., pretending to be loyal, has been arrested by order of Gen. Boyle. He had over \$100,000 with him, which was taken, and he is held for the action of the authorities at Washington. He says the money belongs to loyal parties in Georgia. Military authorities think some. thing is frandulent or wrong in the matter. Gen. Boyle has sent to Cairo for transportation to Vicksburg for 1,700 rebel pris-

oners, captured by Gen. Buel, and will send thither about 1,000 more. BUFFALO, NOV. 7. The billiard match between Foley, of Cleveland, and Kavanaugh, of New York, was won by Kavanaugh by 204 points.

Headquarters Army of the Potomac, Rectortown, Va., Nov. 6—10 p. m.

As the particulars of the fight yesterday at Barbours become known, the more brilliant the victory is found to have been.—
The battle was fought by cavalry alone, and between the best disciplined troops either army could produce. The rebels either army could produce. The rebels augstiff the substitution of a substitution

were under the command of Gen. Stuart, and the federals under command of Gen. Pleasanton. The final result shows that the rebels lost 35 dead on the field, and their wounded must have been numerous. Our loss was five killed and ten wounded.

Gen. Pleasanton, to-day, reports that Stonewall Jackson occupies Chester Gap with his command. The town of Warrenton was occupied by our troops at 3 o'clock this afternoon, taking five prisoners be-longing to the 3d Virginia cavalry, and two infantry soldiers, who stated that their regiments had gone up the valley. Gen. Bay ard had a slight skirmish, to day, on the Waterloo road, killing one man, wounding two, and taking ten prisoners, without any loss on his part.

GAINESVILLE, Va., Nov. 6. The corps of Gen. Reynolds, belonging to Gen. McClellan's command, took possession of Warrenton, yesterday. The rebels evacuated the place without stopping to fight. An investigation into the causes of the conflagration at Hay Market has resulted in the arrest of two men of Gen. Steinweyer's command. A court martial has been or lered to try the cases. It is intensely cold, to-night. This morning a snow storm commenced—the first of the season. WASHINGTON, Nov. 7-Noon.

The first snow storm of the season commenced at 7 o'clock this morning. Up to this hour two inches of snow has fallen. NEW YORK, NOV. 7. Flour 5al0c better. Wheat le better, with moderate demand, at 1,15al,23 for

LOVEJOY ELECTED .- We are gratified to learn that the fears of the defeat of Mr. Lovejoy are groundless. He is elected by 263 majority.

## The Cause of Defeat and the Danger.

Speaking of the result of the elections, the New York Times says:

The beaviest load which the friends of the government have been compelled to carry through this canvass has been the inactivity and inefficiency of the administra-tion. We speak from a knowledge of public sentiment in every section of the state, when we say that the failure of the government to prosecute the war with the vigor, energy and success which the vast resources at its command warranted the country in expecting at its hands, has weighed like an incubus upon the public heart. With every disposition to sustain the governgiving it a cordial and effective supportits friends have been unable to give a satisfactory answer to the questions that have come up from every side: Why has the war made so little progress? Why have our splendid armies achieved such slight successes? Why have they lain idle so long, and why have the victories they have won been so utterly barren of decisive results? money they could possibly use; yet we have made scarcely any progress toward crushing the rebellion.

The Tribone thus warns the administration of danger:

We tell the administration most earnest ly that the country cannot endure another month's inaction of our armies—that a Fernando-Wood dictatorship at the north, in thorough sympathy if not in open alliance with the Jeff. Davis rebellion at the south, will inevitably result from such inaction.

The war for the Union must be fought out speedily and resolutely or it will die out Defeat would be calamity, but delay is rain.

IMPORTANT TO GRAIN DEALERS .- The commissioner of revenue decides that a person who buys grain strictly on his account, and sends it to another market, there to be sold on commission, is not thereperson who buys grain strictly on his account, and sends it to another market, there to be sold on commission, is not thereby made subject to any license tax under the excise law. If he buys grain solely for another person or firm, acting as their agent, he is still exempt from license. If he buys for more than one party, he comes he buys for more than one party, he comes within the provisions of section 64, article 14, and requires a liceuse as a commercia

This applies only to instances where grain is bought and sent to another market for sale. When the grain is sold by the purchaser, he requires a dealer's license but whether wholesale or retail, must be left entirely to the judgment of the asses-

sor in each case.

Inasmuch as a licensed wholesale dealer is permitted to act as a commercial broker wednesday, THE 21st DAY of JANUARY, A without an additional license, as well as to without an additional license, as well as to sell at retail, parties engaged in the grain trade, as usually conducted, will probably find it to their advantage to obtain licenses as wholesale dealers.—Chicago Tribune.

Its rates, its plan of operations, and its basis, are identical with the best companies in this country and Europe. Its trustees are well known, honorable business men, and are as capable of managing an institution of this kind, as men in any other portion of the United States. The experience of the company thus far proves that we can have as reliable companies in the west as any where else, if we will, and self-interest certainly indicates that we should have them, and build up home interests in every practicable way. In the above respects, this company claims equality with its co-workers, and in the following superiority: It obtains the greater portion of its business in the health. iest portion of the United States, thus having the advantage of a less per centage of loss; it receives higher rates of interest on its investments, thus making more rapid accumulations-both very important items in Life Insurance; and its expenses have been less in proportion to its business than any other new company doing business in the United States.

state; excepting the brave men who bave rallied around our country's fing in this time of peril, our citizens have been allowed to pursue their peaceful avogations: our barvest, though not as abundant as Providence

sometimes has pleased to grant us, has yet well com-pensated the labor bestowed-upon it, and well filled our houses and barns; the savage tribes upon our horder actilements, so threatening at one time to our peace, have been quieted, and kept under surveillance. The great cause of our nation, it is true, has not triamphed yet over its enemies, but neither has it yet failed; the enemy has been driven from the soil of the oyal states; our army has been reinforced by hundreds of thousands of brave, patriotic and noble men roady o do battle, and, if necessary to die for the integrity o

the Union; our resources and energies are unimpaired; we have reason to be hopeful for the future, and therefore thankful for the past. The loyalty, honor and patriotism of the state of Wisconsin have been nobly sustained by her brone sons upon every field of battle where they have been called upon to vindicate our national flug. Proceedings of the Council.

REGULAR MERTING, 1 THURSDAY EVENING, NOV. Oth., 1832. Present-The Mayor, and all the Aldermen except Ald. Shelton, McChesney and

Pattison. Several bills were presented and referred

to the finance committee. The finance committee reported favorably on a number of bills, which were passed and orders allowed.

The bill of the Gazatta office, amounting to \$785, for advertising the reassessed taxes of 1854, 1855, 1856 and 1857 was allowed at \$628, and the balance referred to the judiciary committee to ascertain whether the amount for each description should be 20 cents or 25 cents.

A bill for costs in favor of Knowlton & Jackson, for costs in the supreme court, was allowed at \$16.50, and another account of \$100 for services, were withdrawn by Mr. Jackson. A bill in favor of J. C. Fredendall for

\$50 was allowed, to be paid from the second ward fund. Also, the account of F. Barrere, \$9.41,

for enrolling the militie.

An amendment to the ordinance regulating the sale of wood, hay, etc., was referred to the aldermen of the second ward. An order in favor of McKey & Bro., on

the judgment fund for \$191 was ordered to be canceled, and one drawn on the genoral fund for the same. An order in favor of Andrew Palmer, on

the general fund for 3131.14, was presented with a request that the city allow him interest on the same, as it had been presented to the treasurer in payment of taxes and refused."

Much discussion followed, Ald. Winans contending that interest was due Mr. Palmer, while other aldermen held that an order on the general fund could not draw interest. The motion was lost by the following vote: Ayes-Ald. Patten and Winans.

Noes-Ald. Bates, Barnes and Collins. A long discussion occurred upon remitting the fine imposed for interference with

An order was introduced authorizing the treasurer to receive coupons due next February in payment of taxes, which was adopted.

An order for \$35 was adopted for the treasurer to pay for a deak. Adjourned.

How the secessionists love the north-ERNERS.—As one instace calculated to show the intense hatred which the secessionists of Nashville bear towards the northerners, I will transcribe the following inscriptious which were written, apparently in a female hand, on the window shutters of a fine house in that city lately occupied by the unionists as a hospital. INSCRIPTION.

"I hope that every officer who enters this house may depart this life in double quick time. That they may suffer the torture of ten thousand deaths before they die; and paralyzed be the hand that would alleviate their sufferings and may the tongue of him who would speak words of comfort, cleave to the roof of his mouth; as for the Yunkee women, who are hungry for the spoil,---but cursed are they already. God bless the Southern cause; curse the Northern and all that fight for it." ANOTHER

"May all the curses that ever fell on man fall on that man (naming a worthy Federal officer) and his family."

A one-legged orator, named Jones, was pretty successful in bantering an Irishman, when the latter naked him: "How did you come to lose your leg?" "Yell," said Jones, "on examining my pedigree and looking upon my descent, I found there was some Irish blood in me, and becoming convinced it was all settled in that left leg, I had it cut off at once." "Be the powers," asid Pat, "it ud av bin a good thing if it had only settled in your head."

Proceedings of the Council.

REGULAR MEETING, THURSDAY EVENING, Nov. 6th, 1852.

Present-The Mayor, and all the Aldermen except Ald. Shelton, McChesney and Pattison.

Several bills were presented and referred to the finance committee.

The finance committee reported favorably on a number of bills, which were passed and orders allowed.

The bill of the Gazette office, amounting to \$785, for advertising the reassessed taxes of 1854, 1855, 1856 and 1857 was allowed at \$628, and the balance referred to the judiciary committee to ascertain whether the amount for each description should be 20 cents or 25 cents.

A bill for costs in favor of Knowlton & Jackson, for coas in the supreme court, was allowed at \$46.50, and another account of \$100 for services, were withdrawn by Mr. Jackson. A bill in favor of J. C. Fredendall for

\$50 was allowed, to be paid from the second ward fund. Also, the account of F. Barrere, \$9.41

for enrolling the militiz. An amendment to the ordinance regula-

ting the sale of wood, hay, etc., was refer red to the aldermen of the second ward. An order in favor of McKey & Bro., on the judgment fund for \$191 was ordered

to be canceled, and one drawn on the general fund for the same. An order in favor of Andrew Palmer, on the general fund for \$131.14, was present-

ed with a request that the city allow him interest on the same, as it had been presented to the treasurer in payment of taxes and refused. Much discussion followed, Ald. Winans

contending that interest was due Mr. Palmer, while other aldermen held that an order on the general fund could not draw interest. The motion was lost by the following vote: Ayes-Ald. Patten and Winans.

Noes-Ald. Bates, Barnes and Collins.

A long discussion occurred upon remitting the fine imposed for interference with impounding swine. An order was introduced authorizing the

treasurer to receive coupons due next February in payment of taxes, which was adopted. An order for \$35 was adopted for the

treasurer to pay for a desk. Adjourned.

MARIA F. CLARK. Long Telegraphic Cincuit.-The longest distance ever telegraphed without re-

writing was accomplished, yesterday between New York and San Francisco, 4,500 miles. The next longest is between Lon don and Turin, in Siberia, 4,039 miles. It is anticipated that an extension of the

wires will be made to Nikolaievski, in the Russian possessions, on the Pacific, by the end of this year, and that telegraphic communication with New York, by way of Siberia and California, will be established by the end of next year.

Hon. Causius M. Clay will lecture in this city, at Lappin's Hall, on the evening of Nov. 15th, 1862. Subject-The President's Proclamation. Admission 25

How the secessionists love the north-ERNERS. - As one instace calculated to show the intense hatred which the secessionists of Nashville bear towards the northerners, I will transcribe the following inscriptious which were written, apparently in a female hand, on the window shutters of a fine house in that city lately occupied by the unionista as a hospital.

INSCRIPTION. "I hope that every officer who enters this house may depart this life in double quick time. That they may suffer the torture of ten thousand deaths before they die; and paralyzed be the hand that would alleviate their sufferings and may the tongue of him who would speak words of comfort, cleave to the roof of his mouth; as for the Yankee women, who are hungry for the spoil,—; but cursed are they already. God bless the Southern cause; curse the Northern and all that fight for it."

ANOTHER "May all the curses that ever fell on man fall on that man (naming a worthy Federal officer) and his femily."

A one-legged orator, named Jones, was pretty successful in bantering an Irishman, when the latter asked him: "How did you come to lose your leg?" "Well," said Jones, "on examining my pedigree and looking upon my descent, I found there was some Irish blood in me, and becoming convinced it was all settled in that left leg, I had it cut off ut once." "Be the powers, said Pat, "it ud av bin a good thing if it had only settled in your head."

IMPORTANT DISCLOSURE.

A Voice from the Battle-Field!

A Remarkable Letter for Everybody to Read!

The following letter from the special correspondent of the New York Evening Express was written imme diately after the recent battles. As it contains many acts of general interest to the people, we are induced to insert it here. We are sure our readers will thank us for doing so: \* \* 10 15 5:

This battle (Antietam) has been the most sangularly of the war, and the only one lought with visible design, and upon military principles. The arrangement of our corps—the overlooking position of the commanding general—the sending into action the right and the left-division—the closing up of the center and final success—excite bewildering agitation, and carry the mind to the great fields of Austerlitz and Wagram, fought by Napoleon. Of all this have I spoken. The heavy Bisaches and the celebrated brands of fast Color Calcoses, printed by access—excite bewildering agitation, and carry the mind to the great fields of Austerlitz and Wagram, fought by Napoleon. Of all this have I spoken. The heaviest drilling.

30 cases and bales of commanditudes of commanditudes of commanditudes of commanditudes. The heaviest drilling.

30 cases and bales of Shirting Stripes, the beaviest and most durable, such as Amoskeag, Kork, Westbrooks, &c. the hospitals. War has its glories-but it has its ten housand demons in these human tortures, that make the eye-bails ache—the heart acho—the lips pallid and the brain reel. The sight is at first ositively unendurable. The life blood of some is still trickling away in silent calmness—while the dissevered limbs and maniac brains of others, give rise to sounds God grant I may

and mod durable, such as Amoskong, Kork, Wear-broom. &c.

They are warranted nore wool and su phur, stove dried which imparts to them their well known medicinal qualities, and makes them rought after by every New England housewife.

It was in the hospital where rested the gallant Rooker that I learned the history of those mythical words, so often seen and so little understood, "S. T-1800-X." Anything alleviating the sufferings and saving the lives of our suddiers, is a national blessing. I witnessed some as tonishing results from this article.

It is well known the effect of burnt gunpowder and excitement is the rat, which added to the loss of blood in the wounded creates the necessity for a reviving stimulant. In this particular hospital, the physicians were allowing their patients to drink Plantation Bitters, otherwise called S. T.—1860--X, and although the wounded were most numerous here—this division having opened the fight at five in the morning-the men were mostly composed, and there was very little uinting. The article acts upon the stomach and nerves in the most incomprehensible manner, superior to brandy, and without subsequent reaction. It originated in the West Indies, composed of the colebrated calisaya Bark, Roots, Herbs, &c., all preserved in at. Croix Rumthe S. T.—1860—X being a secret ingredient, not jet revealed to the public. It is principally recommended for want of appetite, disordered liver, intermittent fevers, stomach difficulties, &c. I understandit was somewhat known in the southern states previous to the war, and it appears an agent of Jefferson Davis recently applied to the proprietor for the privilege to make it for hospital purposes during the war, to which they made the following reply:

New York, Jan. 16th, 1862. Dr. Agent, &c.

Dr. Agent, &c. tertain it, although it might please us to assuage the sufferings of your misguides followers.
We remain very respectfully yours,
P. H. DRAKE & CO.

These contlems gave the history of certain ingredients of their article for over two hundred years—show ing that through all changes of the medical profession and its practitioners, strength, composure and cheerfulness have been derived from these sources. Docto Woods, in the Washington Hospitals, informed me that one putient was fast sinking and crazy, and had not slept an hour in two weeks until the Plantation Bitters came to his knowledge, when one day's trial gave him a night's rest, and he was now fast recovering. I am surprised our government has not equalled Jeffersor Davis in energy, and adopted this valuable article in all our hospitals. The weak soldiers cling to it like a brother. As a lay member, I can bear witness it is good to take," and affords more energy and life than anything I ever tried. Success to the Plantation Bit-

But I have digressed. In my next, I shall speak of gathering in the wounded, burying the dead, &c., &c. NICODEMUS.

From the Saturd of Evening Gazette. A Face Worst Knownso.—The particular and variable state of the atmosphere at this senson of the year, is a prolife source of minamatic disease. People trouble with D spepsia and kindred minemet, led their trouble more seriously at this senson than any other.—But all the diseases middent to persons of dyspeptic temperaments may be avoided. If we were permitted to say a word in the car of every sufferer in the land, that word would be—"Try the Plantation Bitters."

"Horon to Whom Honon is Due"—We take great pleasure in commending to the notice of our readers the celebrated "S. T.—1802—X," or Plantation eithers. The Bitters have attained popularity unparticled in the history of proprietery heddelines. All who use them speak in the highest terms of their wanderful effects and medicinal virtues. The formula upon which they are made accompanies each bottle, so that all may judge for themselves of their efficacy. Success to the Plantation Bitters.

We might multiply testimonials to any length but cut bono? The people are, after all, the best judg es, and they say that the

We have made the above Reduction in Prices with the two-fold view of benefitting the public and ourselves. The public have been swindled by spurfous machines made in imitation of ours. The motal in them, from the from casting to the smallest place, is of poor quality. Cheir makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mephanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good muchines can be made at moderate ments, that good machines can be made at moderate prices. The bost designed machines, fielly, Made, are always hable to get out of order, and are sure to cost onsiderable trouble and money to keep them in repair. The qualities to be looked for in a machine are; essentially of correct action at all rates of speed, simplicity of contraction, areat durability and condition of corrections. energy of correct action at all rates of speed, simplicity of contraction, great durability and rapidity of operation, with the least labor. Machines to combine these essential qualities, must be made of the best metal and finished to perfection. We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it that these having the above.

may concern, will find that there having the above unlitted not only work well at rapid as well as slow rates of speed, but last long in the finest possible workng order. Our machines, at made by us; will earn ore money with less labor than any others, whether nimitation of ours or not. In fact, they are change than any other machine as a gift.

THEIR EQUAL We do not profess to have discovered some Roots "known only to the Indians of South America," and a cure for "all discuses which flesh is heir to," but we cialm to present to the public a truly valuable prepara-tion, which every intelligent. Physician in the country will approve of and recommend. As a remedy for

INCIPIENT CONSUMPTION,

Weak Lungs, Indigestion, Dyspopsia, Diseases of the Nervous System, Paralysis, Piles, Diseases peculiar to Fomales, Debility, and all cases requiring a Tonic, UNSURPASSED!

For Soro Threat, so common among the Clergy, they

are truly valuable.

For the aged and infirm, or for persons of a weak constitution—for Ministers of the flospel, Lawyers, and all public speakers—for Book-Respors, Tailors, Seamstresses, Students, Artists, and all persons leading a sedentary life, they will prove truly beneficial.

As a Beverage, they are wholesome, innocent, and delicious to the taste. They produce all the exhiliarating effects of Brandy or Wine, without intexicuting; and are a valuable remedy for persons shifted to excessive use of strong drink, and wish to retrain from it. They are pure and entirely free from the poison contained in the adulterated Wines and Liquors with which the country is flooded. country is flooded. country is flooded.

These Bitters not only CURE, but PREVENT Dissess, and should be used by all who live in a country where the water is bad, or where Chills and Tevers are prevalent. Being entirely innocent and harmless, they may be given freely to Children and Infants with im-

Punity.

Physicians, Clergymen and temperance advocates, as an act of humanity, should assist in spreading these truly valuable BITTERS over the land, and thereby essentially aid in bankshing Drunkenness and Disease.

We have made the above Reduction in Prices with the two-fold view of benefitting the public and correctors the public have been swindled by spurious machines and in imitation of ours. The motal in them, from the iron casting to the smallest piece, is of poor quality. Choir makers have not the means to do their work well, thou yare hid away in scene places, where it would be impossible to have at their command, the proper mechanical appliances. It is only by doing a great functions, and having actensive manufacturing establishments, that good machines can be made at moderate vices. The best designed machine, is ally Madle, are always liable to got out of order, and are sure to cost considerable trouble and money to keep them in repair. The qualities to be looked for in a machine are exercisely of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation, with the local index. Machines to combine these estimated qualities, must be made of the best metakand finished to perfect on. We have the ways and means, on a great scale, to do this.

The purchasers of machines, whose doily bread it may concorn, will find that those having the above qualities not only work well at rapid as well as show that of the concorn, will find that those having the above qualities of only work well at rapid as well as also that it is a state of the proper of the concorn, with sets labor than any others, whether a business of speed, but least labor than any chere, whether a labore than any other machine as agit.
